CALL FOR PAPERS, PANELS AND TUTORIALS

Mini track on Game-based Learning for History, Heritage and Politics

Track co-chairs: Dr Tobias Bevc, Political Science, Technical University of Munich and Dr Erik Champion, Digital Media, Media Arts, COFA, University of New South Wales, Australia

If e-learning can tackle the "Shavian monster" of ludology, (that is, games that are genuinely both fun to play and meaningfully educational), can these game-based learning environments also challenge and educate audiences on intangible and controversial values, opinions or beliefs? Inside a magic circle, gamers can 'play' with various hypotheses on the validity, construction, significance, use, maintenance, or disappearance of political views, symbols, and communities, as well as build counterfactual and conjectural realms featuring historic and heritage based sites, artifacts, and wider cultural beliefs.

However, the use of games may popularize history, heritage and politics while treating or inviting the player to treat them at a superficial level. We could call this the "Indiana Jones" dilemma. Hence, the problem the research community has to solve is how to create a video game that is fun and thought provoking or otherwise educational.

To increase knowledge and awareness of game-based learning issues, papers are invited to this mini track that aim to encapsulate and provoke research on computer game-based learning for history, heritage, and politics. Recommended topics include, but are not limited to, the following: political games, persuasive games, games to promote historical learning, games to promote or challenge heritage issues and sites, interactivity scenarios designed for the social sciences, technical advances in game-based learning for history heritage and politics, evaluation studies, as well as pedagogical issues such as "the Shavian monster".

Submission details:

Abstract details: The Abstract should be a minimum of 300 and no more than 500 words including up to five keywords and keyphrases to be received by **27 March 2008**. Please read the abstract guidelines section of the website before submitting.

Submission: Online at

<http://academic-conferences.org/ecgbl/ecgbl2008/ecgbl08-abstract-submission.htm>

Please ensure that you complete all relevant sections of the form, including the conference track the abstract is intended for, the proposed title for the paper, the full names (first name and surname, not initials) and email addresses of all authors and a postal address and telephone number for at least one contact author. Please indicate clearly if the contact author is not the lead author..

Full paper:

Only required when the abstract has been selected and not to be more than 5,000 words including abstract, keywords and references (the Harvard referencing rules need to be followed). Submission date will be no later than 15 May 2008. Papers should be submitted as .doc or .rtf file attachments by email to the Conference Manager, Elaine Hayne at elaine.hayne@academic-conferences.org

Important information:

The selection panel of the conference committee will consider all abstracts received by the submission deadline to ensure that the proposed paper is relevant to the Conference. The authors of abstracts, which describe a relevant paper, will receive a notification of abstract acceptance. All full papers will be blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, that the standard of English is adequate and that the paper is appropriately referenced. Papers that are accepted will be published in the conference proceedings providing at least one author registers and presents the work at the Conference (see the registration section of the conference website for more information about registration). Due to the large number of papers expected for this conference, the committee only allows an author to present one paper. Therefore if multiple papers are accepted for presentation different co-authors need to present each paper.

Important dates:

Abstract submission deadline:	27 March 2008
Notification of abstract acceptance:	3 April 2008
Full paper due for review:	15 May 2008
Notification of paper acceptance (with any changes):	24 July 2008
Earlybird registration closes:	7 August 2008
Final paper due (with any changes):	21 August 2008
Final author registration date:	11 September 2008
