### Mini Track Call for Papers on The Management, Leadership and Governance of Virtual IT Development Teams

**Track chair:** Dr. Phillip Davidson, University of Phoenix, USA

Information technology plays a key role in the expansion of virtually every business. Expansion of the internet and the world wide web provide easy access to resources around the world. Healthcare organizations outsource development of a wide variety of software programs to enhance patient safety. Aircraft companies outsource and insource production and planning around the world. Software companies establish relationships globally.

This track focuses on management, leadership, and internal and external governance of IT development within a virtual environment, which is frequently transnational or global. Presentations can be focused on technologies, leadership best practices, the effects of outsourcing and insourcing, the role national cultures play within virtual development teams, the challenging issue of organizational transparency in global enterprise solutions, and general keys to success.

Possible topics include, but are not limited to:-

- Technologies for Virtual IT Development Teams
- Leadership best practices for Virtual IT Development Teams
- The impact of outsourcing and/or insourcing on Virtual IT Development Teams
- Impact of national cultures on Virtual IT Development Teams
- Organizational transparency and Virtual IT Development Teams
- Key factors in the success of Virtual IT Development Teams

### Important information:

- The selection panel of the conference committee will consider all abstracts received by the submission deadline to ensure that the proposed paper is relevant to the Conference.
- The authors of abstracts that describe a relevant paper will receive a notification of abstract acceptance. All full papers will be double-blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, the standard of English is adequate and the paper is appropriately referenced.
- For authors whose first language is not English we request that you have your work proof read prior to submission by a native English speaker (or at least a fluent English speaker). Papers can be rejected due to a poor standard of English.
- Papers that are accepted will be published in the conference proceedings providing at least one author registers and presents the work at the Conference (see the registration section of the conference website for more information about registration).
- Due to the large number of papers expected for this conference, the committee only allows an author to present one paper. Therefore if multiple papers are accepted for presentation different co-authors need to present each paper.
